- > a completely private cremation in an AfuBOX coffin,
- > the use of a funeral home for the duration of the cremation,
- > the return of your pet's ashes in the funeral urn of your choice (Incinéris urn included, or the option of a decorative urn),

Classic cremation

This service is suitable for anyone who wishes to receive their pet's ashes to keep or to scatter.

Your vet will organise the cremation service with INCINÉRIS and will take care of all the arrangements on your behalf.

This individual* cremation service ensures that you receive all of your pet's ashes, as provisions are made to identify and separate them.

This service includes the return of your pet's ashes in an environmentally-friendly urn designed to be kept or buried, or used to scatter the ashes.

INCINÉRIS environmentally-friendly urn (included in the service)

If you are interested, INCINÉRIS also offers a selection of decorative urns to store your pet's ashes and keep its memory alive.

You can view our range of funeral urns directly at your vet's surgery, at the crematorium or on our website : boutique.incineris.fr

Whichever option you choose, the urn comes with a certificate of cremation.

* The cremation unit can take two to three pets at the same time.

Communal cremation

This service is designed for pet owners who wish to say goodbye to their pets in a dignified and respectful way.

Your vet will take care of everything.

You will leave your pet in the capable hands of your vet, who will contact INCINÉRIS to arrange the cremation service.

Your pet will be cremated along with other family pets such as dogs, cats and rabbits.

It will therefore not be possible to return your pet's ashes to you. As per the current regulations in force, they will be entrusted to a burial centre.
